Further Details and Registration

Transfer Day is an online event hosted by CollegeWeekLive, an innovative virtual college fair. This free event is a chance for your students and their families to connect live with current UC Santa Cruz students.

Transfer Day is an especially good opportunity for our fall 2012 applicants, since it will give them a chance to ask questions and learn more about the campus from the perspective of current transfer students.

If February 2 is inconvenient for your students, we encourage them to join us at one of our other online events in the winter and spring:

International Day: February 22, 2012
Spring College Fair: March 21-22, 2012

Please note that Transfer Day features text chat only (no video chat) and that it will focus on student life. See the other online admissions events above for opportunities to connect with UC Santa Cruz Admissions officials and other staff members.
