If you want to be educated in the heart of where knowledge is created, medical discoveries that cure diseases, inventions that revolutionize how cars are powered and food is grown, new technologies that push the boundaries of media and music...We welcome the world!

"This experience has opened my mind in every aspect. I have grown personally...I got the incredible opportunity to work in my field, in one of the bigger businesses of the Silicon Valley, pursuing my passion in a place I love. International Student Services helped me in the process of transformation by being a common reference point throughout all these changes in this country far from home."

Davide Di Censo
ITALY

"By placing emphasis on the student as an individual while also recognizing the common goals of the community, UC provided a supportive environment in which I could thrive. Enriching my life, in turn, helped me actively engage in my educational experience. I found myself a new place where I could flourish personally and academically, as well as create my future."

Frances Marcelle
USA

"International advisers have assisted me in various ways that made my career a smooth one, and their patience and dedication to serving international students have allowed me to concentrate on becoming a better teacher and researcher...for example, I have been named a recipient of the Wilm-Haynes-Know Award for Teaching Excellence."

Jinzhuo Zhao
CHINA
GREETINGS FROM UC PRESIDENT MARK YUDOFSK</p>

The University of California and California itself are transformations. The emerging discipline of systems medicine, culture and climate change on our campuses shape how the world sees us.

Mark, faculty and staff across the campus community collectively build the欣福 with the critical ideas you strive to better understand and improve the human condition.

At UC, we stand at the forefront of cutting-edge research, new thinking and new approaches. Discover your interests as prospers, across all of our campuses. Your future is defined by your potential, your passions, your perseverance. Not what you study but how you use your research that makes a difference.

Are you ready to transform the future with us?

As a UC student, you will join a community that is diverse, committed, talented and hard-working. Whatever your goals, you will have access to a wealth of educational, research and professional opportunities.

The value of a UC San Diego degree is undeniable! Seven Nobel Laureates teach and conduct research on the UCSD campus.

UC San Diego is a research powerhouse located in Southern California. The University is nationally recognized for its advanced biomedical research, graduate-level education in the life sciences and health professions, and excellence in patient care.

UC San Diego (UCSD) is a leading university researching and educating in the life sciences, engineering, physical sciences, social sciences, and the humanities. UC San Diego tops U.S. News & World Report's list of top research universities, with the top academic programs in the nation across the disciplines.

UC Santa Barbara (UCSB) is a public research university located on a hilltop overlooking the Pacific Ocean. The UCSB campus offers 700 majors, and even more emphases, in the areas of the arts, humanities, sciences, engineering, and social sciences.

UC Santa Cruz (UCSC) is a public research university located in a coastal city near the Monterey Bay National Marine Sanctuary. UCSC's distinctive residential learning communities create the foundation for a broad range of majors and degrees, with new ones growing out of the advanced research and scholarship taking place on campus.

UC Irvine (UCI) is a global research university dedicated to excellence in teaching, research and public service. With an enrollment of 32,500 students, the university has been recognized recently with 14 key areas we take into consideration in the admissions process, including grades and test scores. In addition, we look beyond your academic and major-preparation coursework as we evaluate your application. We consider, for example, evidence of broad-based learning for classroom and nonclassroom experiences and satisfaction of prerequisites.

Transfer Students

Transfer students who have completed at least two years (60 units) of coursework at a regionally accredited two- or four-year college in one of the ten University of California campuses (UC Berkeley, UC Davis, UC Irvine, UC Los Angeles, UC Merced, UC Riverside, UC San Diego, UC Santa Barbara, UC Santa Cruz) are eligible to apply for admission to UC Davis. Students who have completed at least two years of coursework at another accredited college and who wish to apply for admission to UC Davis must submit their applications through the Common Application and pay the Common Application fee.

UC San Diego at UCSD.edu explores the possibilities and potential of the future. UCSD establishes a world-renowned medical school and an engineering school that combines cutting-edge technology with a transformative approach that leads the way in creating positive change in the world.

UC Davis offers the academic excellence that has attracted students to the Davis community for over 100 years. Our vibrant student life, 400 clubs, and more than 200 athletics programs provide opportunities for personal growth and development both on and off campus.

UC Berkeley is committed to promoting sustainability and advancing scientific knowledge through cutting-edge research and technological innovation. The university is a global leader in the production of scientific knowledge and a driving force for positive change in the world.

UC Davis, UC Irvine, UC Santa Barbara, UC Santa Cruz and UC San Diego offer an unparalleled education in the sciences and health professions through their innovative and collaborative efforts.

UC Santa Barbara (UCSB) faculty include the Nobel Laureate from the laboratory of John E.poly, the Chemical Nobel Prize winner for 2017, and the recent winner of the Global Outstanding Science Achievement Award.

UC San Diego (UCSD) is a leading university exploring the spaces where science, art, music, and design meet. UC San Diego is recognized as one of the world's top universities, with a top 10 ranking in engineering, computer science, business, and public health.

International Students

International students are a vital part of the UC Davis community and add to the diversity of our student body. The international office serves as a resource for international students by providing information and assistance with issues related to academic, personal, and cultural adjustment.

The International Student Services office provides information and assistance to international students on a variety of topics, including visa services, academic advising, academic support, and cultural orientation.

International students are required to meet the admission requirements for their respective campus. Visit the campus website for specific requirements and deadlines.

These requirements vary by campus and are subject to change. Please check the respective campus websites for the most current information.

Tuition and Fees

The University of California operates on a student fee schedule that includes tuition, fees, and other charges. The fee schedule reflects the costs incurred by the university during the academic year.

please visit the respective campus websites for full details on fees and charges.

MAJORS AND DEGREES

The University of California operates on a student fee schedule that includes tuition, fees, and other charges. The fee schedule reflects the costs incurred by the university during the academic year.
